

RANGER

www.ford.co.za

Double Cab Bakkie
and Overall Winner

This is no ordinary evolution. The **RANGER** is a completely different animal.

The **RANGER** was brought to life by Ford's best engineers from around the globe. A pick-up truck built with no compromise, it was tested in the toughest climates and terrains across five continents to ensure its superior durability.

With such meticulous engineering and great advances in driving technology, like the inclusion of an electronic throttle control, 10% improved body sealing and NVH packaging that reduces interior noise levels, the **RANGER** is the benchmark in pick-up truck standards, giving you unmatched precision, stability and comfort.

Completely designed around the driver, the **RANGER** comes equipped with the latest entertainment and connectivity technology, making it a smart and refined truck. However, its true truck DNA was not neglected as Built Ford Tough is its heritage. Chassis, drive train and suspension were totally redesigned to achieve an impressive towing capacity of up to 3 500kg and payloads in excess of one ton. Air intake and electronics were also repositioned with the driver in mind, giving superior performance with exceptional water wading of 800mm.

You demand, the **RANGER** delivers, then asks for more.

**ENGINEERED
TO EXCEED YOUR
EXPECTATIONS**

The **RANGER** represents the highest standard of technology and quality, so it is only natural that Ford marshalled the best resources in design and engineering to give it the advanced, striking look that complements its unmatched capability. A staggering 30 000 computer-aided assessments were conducted during the design phase, resulting in a rock-solid body and offering a robust vehicle foundation and precise upper-body design. This gives it a distinct styling that's hard to beat. The use of Kinetic design cues complements the **RANGER's**

toughness, generating a more imposing vehicle stance. The **RANGER** is also significantly larger than its predecessor with a 19% larger load box and 7% longer wheelbase, proportionally redesigned to meet the needs of contemporary pick-up owners.

Glove box that fits a laptop

Cooler centre console*

*Cooled centre console standard on XLT and Wildtrak.

Storage compartment in rear cabin*

*Under seat stowage bin lids standard on Super Cab and available as an accessory on Double Cab.

INSPIRING DESIGN WITH FUNCTIONAL PURPOSE

SAFETY MADE SMART

Ford has gone to great lengths to ensure that the **RANGER** is not only a capable and good-looking vehicle, but also exceptionally safe. With safety features such as ESP with seven different control systems, including Traction Control, Trailer Sway Assist, Hill Launch Assist and Rollover Mitigation, the vehicle adapts brake and engine interventions to provide maximum control and the highest level of stability on and off the road. All **RANGERS** have DIN-compliant load boxes, making your cargo on the back just as safe as the passengers inside. With front, side, knee and curtain airbags, as well as ABS and EBA, safety was just as important as capability. Even the non-reflective material selected for the interior was considered to ensure it reduced driver's glare.

Rear View Camera

Rain Sensing Wipers

Front, side, curtain and knee airbags

A full line-up of passive and active safety features make use of the latest technology to protect driver, passengers and cargo.

Electronic Stability Control (ESC)

Designed to constantly monitor the vehicle's behavior and help you maintain control in difficult and dangerous driving conditions.

Traction Control

Designed to help maintain drive in difficult conditions with three selectable control settings that can vary engine and braking interventions to maximize traction on any surface.

Hill Launch Assist

Helps to prevent the vehicle from rolling back when starting on an uphill slope by keeping the brakes applied until the vehicle starts to move.

Hill Descent Control

Regulates downhill speed in off-road conditions.

Load Adaptive Control (LAC)

When unloaded, partially- or fully-loaded, LAC senses the center of gravity of the vehicle and adjusts the responses of the ESP system to compensate.

Emergency Brake Assist (EBA)

Ensures full braking effect by increasing pressure within the brake system during an emergency stop.

Emergency Brake Warning

The hazard/indicator lights automatically flash during emergency braking.

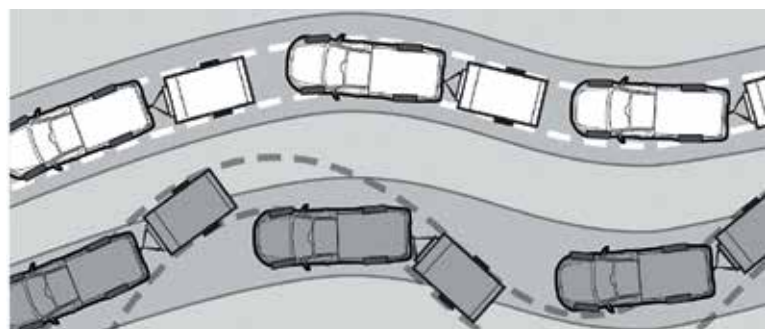

Roll-over mitigation

Designed to identify a potentially dangerous driving situation, and activate the ESP to restore stability.

Trailer Sway Control

When trailer sway is detected the system reduces engine torque and applies the brakes to the appropriate wheel(s) to help restore control. It is part of Electronic Stability Control (ESC).

Height Adjustable Four Way Seats

*Euro NCAP rating applicable to XLT and Wildtrak.

SYNC

POWERED BY **Microsoft**

Ford SYNC®*

SYNC® is one of the most exciting in-car technologies Ford offers. It keeps you connected to your world through full-featured operation of your phone and digital music player using only voice commands. SYNC® listens and is ready to do what you tell it to: Call Family and friends just by saying their name; Answer incoming calls; SYNC® can also read aloud incoming SMS text messages from compatible mobile phones. It works with iPod® and USB flash drives to play music the way you want. Ask to hear a specific artist, album or track using simple voice commands. All while your hands stay safely on the steering wheel and your eyes on the road.

Text message feature is phone dependent. Visit ford.co.za/sync to check device compatibility.

*Only available on XLS, XLT and Wildtrak models.

THE NEXT GENERATION PICK-UP TRUCK

The **RANGER** is taking pick-up truck expectations to a whole new level. The interior is equipped with the latest driver assistance technologies such as Cruise Control, Electronic Shift-on-the-Fly and Dual Zone Electronic Climate Control*, the **RANGER** is one of the most efficiently packaged pick-ups in its class.

*Only available on XLT and Wildtrak models.

The **RANGER** Single Cab has been designed to work harder to earn its keep with a huge payload capacity and an impressive load box volume. This means fewer trips to get the job done. Fewer trips means less time, and time is money.

The **RANGER** Super Cab has back doors that open at a 90° angle, giving effortless access to its spacious and cleverly packaged interior.

RANGER XL-PLUS BUILT TO WORK

The Ford **RANGER** line-up has a track record second to none. The Ford **RANGER XL-Plus 4x4** is all about bold lines and strong performance. It's the perfect vehicle for your heavy duty needs. Specially designed to take the hard knocks and fulfil the requirements of a light commercial vehicle. The Ford **RANGER XL-Plus** is equipped with full ESP and 4x4 capability to not only meet your expectations, but exceed them, no matter the environment.

Running boards – Provide additional sill and panel protection. Assists entry & exit to vehicle. Available on Double Cab models only.

Heavy duty canvas seat covers – Heavy duty canvas seat covers come standard to protect seats from mud and dirt while ensuring the seat mounted thorax airbags remain unobstructed.

Second battery – The XL-Plus also comes with a second, 80 amp hour deep cycle battery with battery isolator, to provide power for auxiliary equipment while ensuring the main battery is not depleted.

Expanded wiring harness & auxiliary switch bezel – The provision of an expanded wiring harness includes additional pre-wired electrical circuits and auxiliary switch bezel, which facilitates the easy installation of electrical equipment such as light bars, driving lights and radios.

Optional steel bullbar – The XL-Plus's steel bull bar also incorporates mountings designed specifically for driving lights, antennas and flags.

Standard XL-Plus features include

- 17" Steel wheels with all terrain tyres
- Expanded wiring harness and auxiliary switch bezel
- Second battery
- Heavy duty canvas seat covers
- Running boards (double cab only)
- Moulded black bumpers
- Locking rear differential
- Daytime Running Lights
- Towbar

Optional feature

- Steel bullbar

XL-Plus derivatives available

- Single Cab
- Single Chassis
- Double Cab
- Double Chassis

The most capable powertrain in its class.

At the heart of so much innovation within the **RANGER**, it's the new generation of TDCi Duratorq engines that represents the biggest breakthrough. Tested to operate at 400m below and 4 500m above sea level, the Ford Duratorq engines are some of the toughest and most advanced in its category, providing superior reliability and durability, higher power and improved fuel economy.

With increased power and torque, the **RANGER** has unmatched performance with an outstanding towing capacity of 3 500kg on some derivatives and payload well over 1 000kg. Innovations like the latest technology high-pressure fuel system and variable oil pump, plus a new lightweight fuel-filtering system, mean the **RANGER** owns the most capable powertrains in its class.

The 3.2TDCi has a respectable 147kW power output and 470Nm torque with 90% of peak torque available from 1 700 to 3 500rpm, providing better engine elasticity. It uses a Variable Geometry Turbocharger, which enables lower-end torque capability for improved launch and driveability whilst maintaining lower fuel consumption.

The 2.2TDCi was developed with two power variations: 88kW delivering 285Nm torque, and 110kW delivering 375Nm torque. It offers exceptional fuel consumption.

The 2.5 petrol engine puts out 122kW delivering 226Nm torque. It uses variable cam technology for enhanced performance, fuel economy and reduced emissions.

Six-speed manual transmission

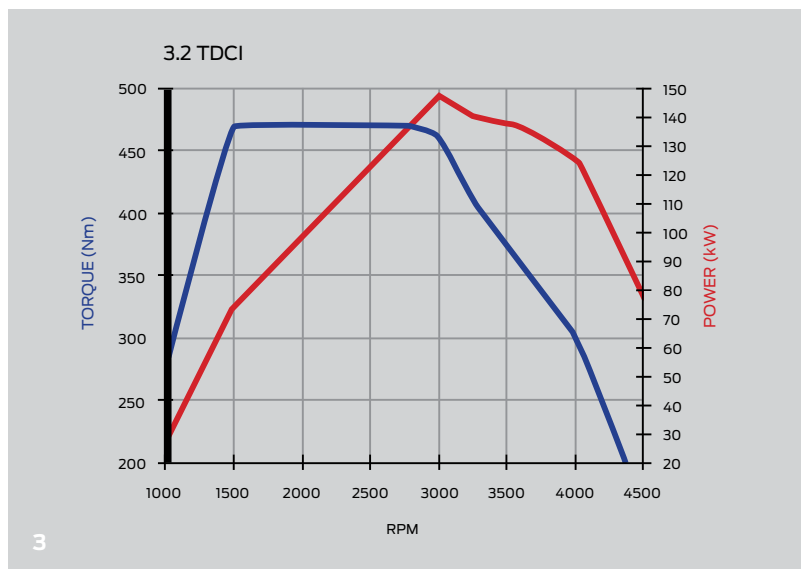

The **RANGER** is fitted with a six-speed manual transmission. It is tailored to the improved torque capability of the Puma engines. It offers up to 15% improved fuel economy in top-gear cruising, increased road-noise insulation and vibration comfort, and higher towing capability supported by improved clutch durability.

Six-speed automatic transmission

The highly advanced six-speed sequential automatic transmission is a game changer. It features maximised fuel economy equal to a manual, improved performance feel, driveability and shift ability together with improved towing performance. The transmission controls include a manual sports mode with brake shift interlock and manual override. The new intelligent transmission uses Driver Recognition features to tailor its responses to individual driving styles.

Automatic transmission software features include:

- Grade Control Logic: When driving downhill, with sufficient brake-pedal pressure, the transmission will downshift to provide increased engine braking.
- Emergency Downshift: Automatically downshifts to a lower gear if the throttle pedal is pushed hard for heavy acceleration in an emergency situation.
- Brake Support: Enables early downward shifting during heavy braking, to provide engine braking and to optimise gear selection for throttle reapplication response.
- Gear Hold: Enables the selected gear to be held when the vehicle is cornering enthusiastically, avoiding an unwanted upward shift or downshift through the corner.

Technology that keeps you safe.

- 1 Electronic Shift-On-The-Fly
- 2 Automatic six-speed transmission
- 3 TDCi engine graph

ENHANCED VERSATILITY

Just when you thought the **RANGER** couldn't get any tougher or smarter, we made available a long list of accessories for you to enhance the pick-up's capabilities even further.

Sports Bar – Gives your vehicle a sporty and stylish look and matches your side steps.

Weather Shield – The bubble weather accessory helps deflect wind and rain from the inside of the vehicle while driving with the window open.

Snorkel – This tough and stylish UV resistant snorkel has been designed to deliver high volumes of the coolest and cleanest air possible to the engine.

Tubular Side Steps – Adds style and sporty looks to your vehicle and matches your sports bar.

Canopy – This rear hatch canopy increases your storage space and provides waterproof storage for your valuable equipment and tools.

Soft Tonneau Cover – Protects the contents of the loadbox. Conceals valuable contents and provides a sleek look.

Carpet Floormat – These stylish hardwearing mats are easy to remove and clean. Anchor points fix the driver's mat to ensure stability.

Nudge Bar – Airbag compatible, tested to Ford's stringent engineering and safety standards. Personalises and enhances the look of your vehicle.

Bonnet Protector – Helps prevent scratches and stone chips on the bonnet.

Business and Commercial Fleet Customers.

The Ford portfolio of products is growing rapidly to meet your business needs.

Please contact your local Ford Dealer for more information
or visit our website www.ford.co.za/fleet
or alternatively email us at fleetsa@ford.com

Ford Protect

Ford **Protect** offers a holistic suite of service, maintenance, warranty and roadside-assistance products aimed at keeping your new **RANGER** in perfect working condition.

New Vehicle Warranty – Every new **RANGER** comes with a 4yr/120 000km Comprehensive Warranty.

Service Plan – Every new **RANGER** comes standard (optional on base models) with a 5yr/90 000km Service Plan, which covers all scheduled servicing except friction materials, i.e. brake pads and wiper blades.

Corrosion Warranty – Cover lasts for 5yr/unlimited km.

Roadside Assistance – Cover lasts for 3yr/unlimited km for mechanical, electrical, flat tyres, batteries, medical emergencies and towing, if needed, to the nearest Ford dealership.

New Vehicle Extended Warranty – An Extended Warranty may be purchased prior to the expiry of the 4yr/120 000km New Vehicle Warranty, giving owners an extra 2yr/80 000km of worry-free driving.

Consult the vehicle handbook, Ford Dealer or www.ford.co.za for more info regarding Ford **Protect** plans.

All **RANGER** models built after February 2014 will have a fixed rear window as standard.

All **RANGER** XLS models built after February 2014 will have Cruise Control, Bluetooth® with Voice Control, and Steering Wheel Audio/Phone Controls as standard.

All **RANGER** 2.2 XLS 4x4 Single cab, 3.2 XLS 4x4 Single cab and 2.2 4x4 XLS Double cab models built after February 2014 will have ESP as standard.

Oyster Silver only available on Ranger models from April 2014 build as standard.

All **RANGER** XLT Double cab models built after June 2014 will have Automatic Climate Control (DEATC).

All **RANGER** XL Double cab models built after June 2014 will have Rear Power Windows as standard.

All **RANGER** Double cab and Super cab models built after June 2014 will have Front Power Windows as standard.

All **RANGER** Double cab and Super cab models built after June 2014 will have 3x 12 Volt Power sockets as standard.

All **RANGER** XLS, XLT and Wildtrak models built after December 2014 will have Ford SYNC® as standard.

CO₂ & Fuel Economy Note: The declared fuel consumption and CO₂ emissions figures were achieved during technical laboratory testing in accordance with the legislated technical specifications (SANS 20101: 2006 / ECE R101: 2005). Fuel consumption and CO₂ emissions figures are used to compare different vehicle types under uniform conditions and are not necessarily indicative of real-life driving conditions. Note that the actual fuel consumption and emissions levels will depend on many factors including individual driving habits, prevailing conditions and vehicle equipment, condition and use.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully too.

Green

Using advanced Ford technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Safe

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to protect you.

Smart

Vehicles with smart intuitive technologies designed to connect your world and many clever solutions from Ford that make life a little easier.

Ford reserves the right, subject to all applicable laws, to discontinue or change features and other specifications either temporarily or permanently, which will be communicated to the Ford Dealer Network.
Printed March 2015.
