Ref: 37.1.4.5.2 Feathers Farm/ Free Range eggs

03 November 2015

Attention: Paul Knight

Re: Free Range Eggs Production System

The Regulations R 725 of 16 September 2011 which regulate the grading, packing and marking of eggs sold within the RSA under the Agricultural Product Standards Act, 1990 (Act 119 of 1990) refers.

Mandla Jam Jam & Samkelo Ngiba from the DAFF visited Feathers Farm on October 29, 2015 to verify the claim that the eggs were produced from a free range production system. The farm was inspected in the presence of the owner (Mr Paul Knight) with the following findings:

Feathers farm has a production system that satisfies the requirements of such a system according to the afore mentioned regulations. Hence; the eggs produced from this system can be presented as **Free Range** for sale.

Please be advised that future retail and farm inspections will be conducted to verify whether these requirements remain observed.

NB: Kindly note that this is not a certificate of compliance but an inspection report.

Regards,
Samkelo Ngiba
