532 Pietermaritz Street
Pietermaritzburg
Kwazulu Natal, South Africa

COMPANY PROFILE

NFD is a recognized furniture enterprise, focused at servicing furniture stores nationally and in various export markets. From our humble beginnings 30 years ago, the company started with a few furniture retail stores catering for the lower income market in Pietermaritzburg.

When the company grew and operated up to 10 furniture stores and a few warehouses in Pietermaritzburg, the company directors decided to add another division, expanding into manufacturing and distribution of a wide range of local and imported furniture.

Managing Director, Abdullah Amod, took charge of this division, streamlining an appealing and exciting product range, introducing many new product lines and creative ideas, whilst quickly building a customer base in neighboring and distant towns and cities.

In the companies early days, with the growing demands in the ever changing furniture industry, the company expanded its manufacturing operation and flexibility by procuring new and advanced machinery, furniture materials and components both locally and internationally to ensure better quality and upgraded models of lower to middle market furniture.

Although furniture is the core line of the business, in order to remain competitive, the company also has a stake in a lounge suite manufacturing operation allowing us to market quality and affordable lounge suites from lower to middle market.

We then incorporated our own brand of beds called Mzansi Bedding, manufactured with SABS approved materials, and high quality standards, ensuring our brand is widely accepted and marketed in furniture stores far and wide.

The company has also built key relationships with suppliers from China and Brazil thus allowing us to import and distribute attractive and quality knockdown furniture products ensuring product offerings are wide and extensive.

The company now has many regular and loyal clients, and focuses on continuous improvement, high standards of service delivery, customer satisfaction and ensuring we are industry leaders.

MISSION STATEMENT

National Furniture Distributors is a one stop furniture supply solution, focused and committed on offering quality products, high standards of service excellence and customer satisfaction. We will strive to be market leaders by being creative, innovative and the absolute best in everything we do.

VISION

Our goal is to always be successful in ensuring our products, quality, price and service is excellent thus ensuring we are a reliable, dependable and preferred supplier to furniture businesses both locally and internationally.
